Re: Asbestos Dump Satellite Sites, Morris County, New Jersey
Response to Request for Information

Dear Mr. Moorman:

Following our telephone conversation of September 4, 1990, I am enclosing some information about the New Vernon Rd. and White Bridge Rd. Satellite Sites and certain proposed response activities. I am enclosing a memorandum from the Department of Health and Human Services written by the ATSDR Regional Representative, dated August 29, 1990, which makes certain findings concerning the "immediate and significant health threat" present at the two satellite properties. As indicated on page 2 of the memorandum, ATSDR intends to shortly release a Health Advisory on this issue. I am also enclosing a copy of the Initial Pollution Report dated August 24, 1990, for the New Vernon Rd. Site and White Bridge Road Site.

You asked about the status of certain additional information which is as follows: a written action memorandum is underway pending a decision by the Agency about additional response actions to be taken; there is no formal sampling plan at this time but I will shortly send results of the sampling which has been done to date; I am investigating whether there is any current guidance from EPA concerning relocation of site residents. As I indicated to you on the phone, we will be basing any relocation responses on the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, 42 U.S.C. §9601 et seq and its regulations found at 49 CFR Part 24.

Sincerely,

Carolyn Fiske
Assistant Regional Counsel
